

# PEGASUS 800

## THE OPTION 2 LOO

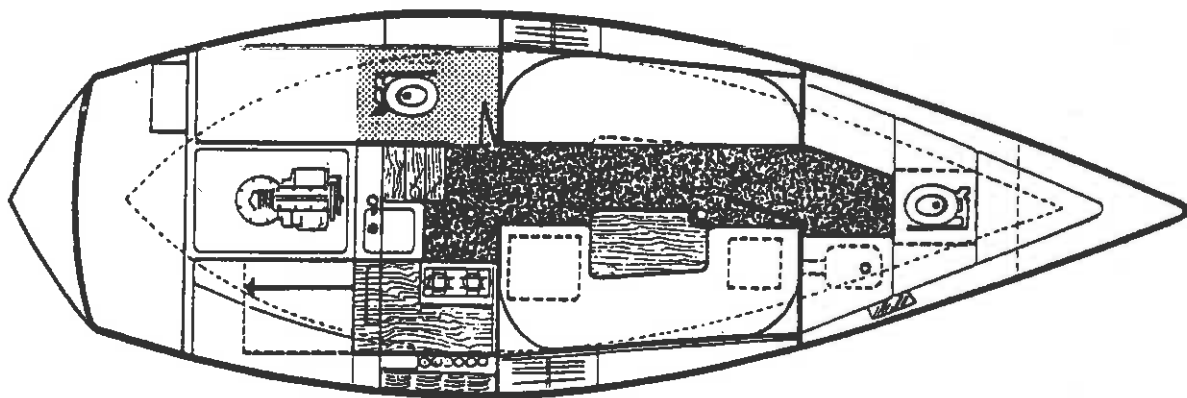

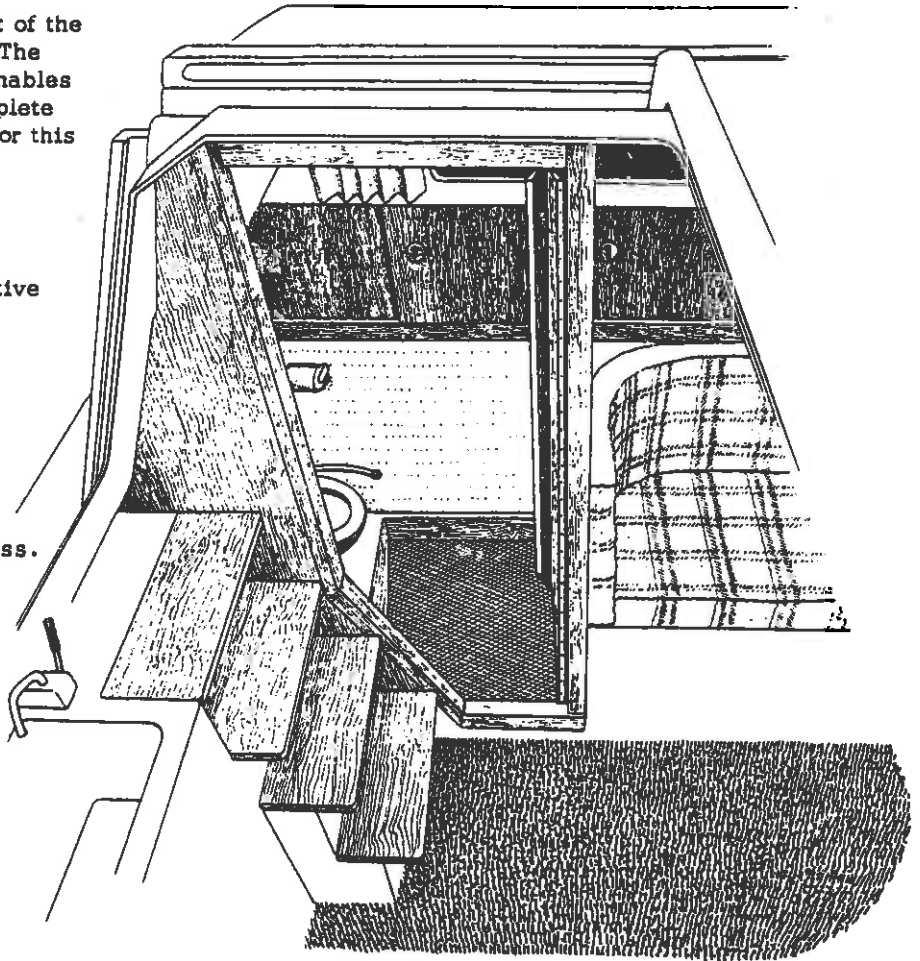

The standard lay out allows the forward part of the boat to be used as a toilet and sail store. The generous elbow room available there also enables you to have a wash basin and mirror to complete what is a particularly roomy toilet facility for this size of yacht.

You may however, prefer to have a more conventional lay out with twin berths in the fore cabin to take advantage of the privacy afforded by the full bulk head as an alternative to the standard arrangement having all the berths in the in the open plan saloon.

To accomodate this variation we offer the Option 2 Loo, a separate, fully enclosed toilet compartment discreetly positioned next to the companionway steps. The Option 2 Loo is finished in rich oiled teak to match the Dè Luxe materials and features a double folding door for easy access.

The addition of the forward berth cushions makes possible six berths in all and enables you to cater for either children or friends who would prefer separate quarters.

The Option 2 Loo does not greatly affect the spacious look of the saloon in the Pegasus 800 which already boasts one of the roomiest cabins in any twenty six foot yacht and makes it even more suitable for cruising with all the family.
