

**The specification** is a comprehensive one with an inventory which includes a hot water system, shower, refrigerator and full gas cooker as standard equipment – the very items we feel you would want to have which are normally extras on other boats.

**The engine** is a 28hp Volvo 3 cylinder diesel on a saildrive leg and operating in a soundproofed compartment. It gives power in reserve, is very smooth and not at all tiresome to have going for long periods when you run out of wind.

**Try one out** at our yard where we will be happy to discuss all aspects of your requirements in detail. This brochure can only tell you so much but you are invited to step aboard and see for yourself the solid construction and beautiful joinery that goes into making the Pegasus 1100 a very special yacht indeed.

#### PRINCIPAL DIMENSIONS

LOA	33'10"	10.30m
